

Belcan

SYSTEMS & SOFTWARE ENGINEERING

We take a customer-driven approach to create solutions with speed and scalability

Specializing in the Aerospace & Defense, Industrial, Automotive, and Government sectors.

Belcan delivers outcome-based solutions over the entire product life cycle.

Some of our focus areas include product systems, test systems, verification and validation, and industrial internet and engineering analytics. Our software engineering analytics services improve a system's uptime and lower total ownership costs. This is why customers have relied on our systems and software services for more than 60 years.

Systems Development

- Requirements & Analysis
- Architecture & Design
- Software Engineering

Certification

- Verification & Validation
- Lab & Field Testing
- Enterprise Integration

Sustaining & Analytics

- Product Support
- Supply Chain Support
- Predictive / Prescriptive Maintenance

Test Systems

- Systems Engineering
- Hardware Engineering (DO-254 Compliant)
- Mechanical Engineering (DO-254 Compliant)
- Software Engineering (DO-254 Compliant)
