About Belcan

Belcan is a global supplier of engineering, supply chain, technical recruiting, and IT solutions to customers in the aerospace, defense, space, automotive, industrial, and government sectors. Belcan engineers better outcomes for customers – from jet engines, airframe, and avionics to heavy vehicles, automobiles, and cybersecurity. Belcan takes a partnering approach to provide solutions that are adaptable, integrated, and value-added, and has been earning the trust of its customers for over 60 years.
Industrial Engineering Solutions
Let’s maximize throughput and increase value to your customers together.

Flexible Engagement Models that Drive Continuous Improvement
At Belcan, we know that reducing waste and variation in your processes leads to better quality, more value for your customers, and a healthier bottom line.

Our flexible engagement model ensures we can apply industrial engineering practices where you need it most – at your facilities, your suppliers, or in a cost-effective remote location.

Let Belcan experts help you eliminate bottlenecks and waste, incorporate new processes, and enhance safety and quality.

Immediate Results—Transformative Impact

Reduce cost by improving efficiency of operational processes
Increase cash flow by improving product delivery throughput
Sustain performance gains by driving transformation with you

Areas Where We Provide Expert Support:
- Project Management
- Continuous Improvement Projects
- Value Stream Mapping
- Plant Layout / Flow Optimization
- Visual Management / 5S
- Time Studies
- Variance Reduction
- Root Cause / Corrective Action
- Production Readiness Review
- Part Transitions / Transfers of Work
- Tooling / Equipment
- Standard Work Development
- Data Visualization / Data Management
- Lean Coaching / Training
- Inventory Optimization
- Six Sigma
- Health, Safety, Environment
